

CACHATTO Desktop

Strengthen your enterprise with a virtual workspace

A secure, virtual desktop
a flexible business-ready environment
anytime, anywhere

Powered by
CACHATTO®

Remote-Access Service
for Business

Enabling work productivity towards business efficiency

CACHATTO Desktop

is an additional application for CACHATTO, which provides users access to the existing **on-premise** infrastructure and **cloud applications**; a **virtual environment** for full **work mobility**.

CACHATTO Desktop is a **cost-effective** solution, empowering employees with a clear-cut approach to maintain **work-life balance**.

Update to the latest version of CACHATTO Desktop at no extra cost.

Have peace of mind with Smart Support, which allows our tech support staff to analyse log activity and resolve any system issues.

Get the latest information and trouble-shooting support from the e-Jan help desk.

Safe and secure A high-level of security prevents information leakage from corporate servers with login authentication and no-local-storage feature.

Stable environment Does not require a stable internet connection; utilising applications from the local CPU, which allows for lightweight processing and offline capability.

Workstyle versatility Download files can be edit offline. With a window-like UI and simple navigation using the quick-access feature, you can get more done from the get-go.

Easy to implement Changes to existing firewall settings are unnecessary, making it easy to deploy. The CACHATTO administrator page puts you in control of accessibility.

A flexible, enterprise-level solution with minimal investment

Simplified workstation Offers a connection to corporate e-mail, calendar, contacts, file server, and access to cloud-based applications and corporate web-based groupware without compromising security.

Value for your business Simple licensing to provide a high-quality, optimised, enterprise-mobility solution. VPN is inessential; reducing the cost of investment.
