CACHATTO ®
Secure Unified Digital Workspace

Data security on end-point

Secure Digital Workspace for managed and un-managed devices for easy access to cloud and on-premise resources. CACHATTO focuses on Data Leak Prevention and securing data at the end point by not storing any data on device.
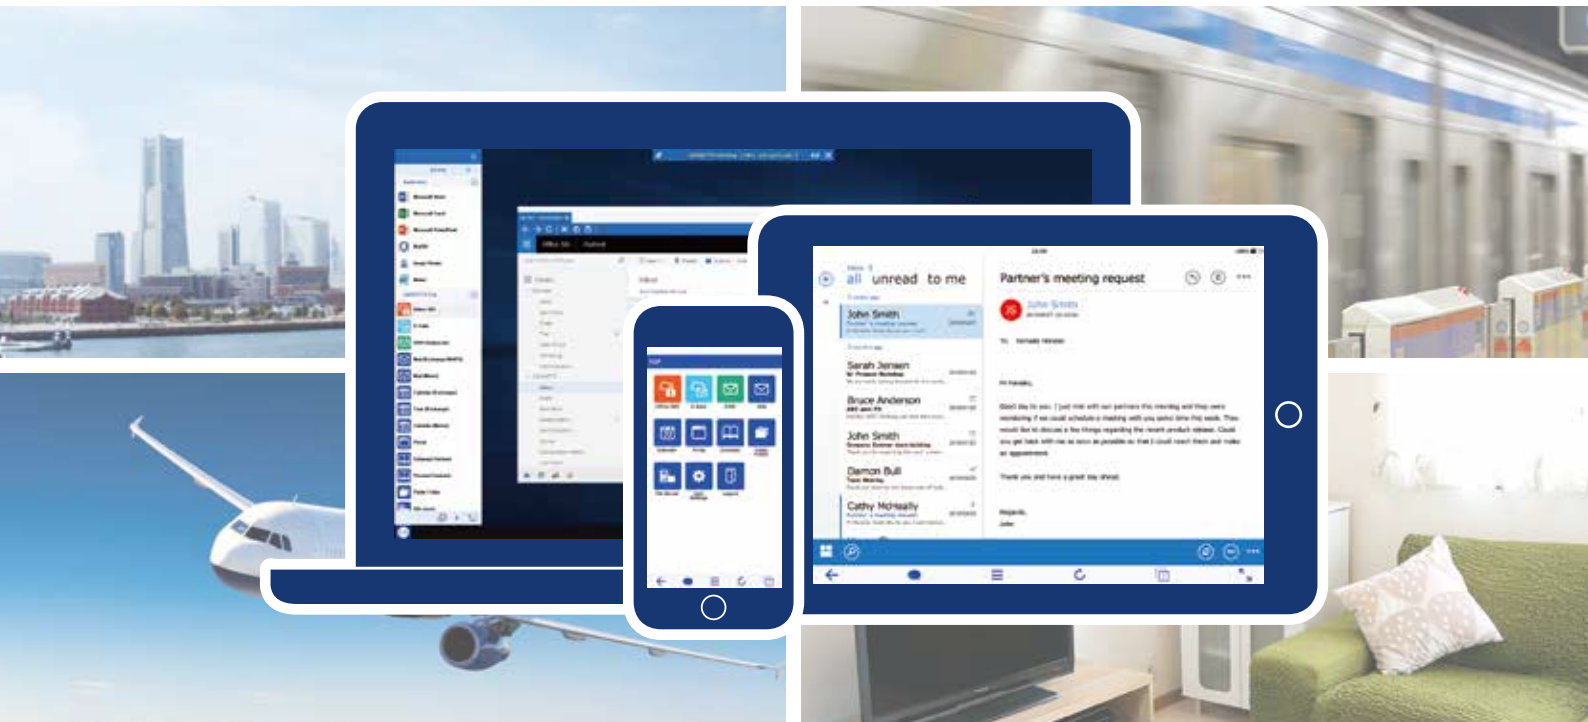

Secure access - anytime, anywhere, via any device

Provide a safe environment when accessing corporate on-premise and cloud-based data without compromising user agility or corporate manageability.
